

MAHMOUD AHMED ALI

Junior Full Stack Developer

Sohag, Egypt | mfy1511@gmail.com | GitHub: Available on request | Portfolio: Available on request

PROFESSIONAL SUMMARY

Passionate Junior Full Stack Developer with hands-on experience building complete web applications across front-end and back-end layers. Skilled in creating responsive user interfaces, developing REST APIs, working with databases, and debugging application issues. Strong problem-solving mindset, fast learner, and adaptable developer committed to continuous improvement, clean code, and delivering practical digital solutions.

TECHNICAL SKILLS

- " Front-End: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Design
- " Back-End: Node.js, Express.js, REST APIs, Authentication
- " Databases: MongoDB, MySQL, Data Modeling, CRUD Operations
- " Tools: Git, GitHub, Debugging, Performance Optimization

PROJECTS

E-Commerce Website

React.js | Node.js | Express.js | MongoDB

Built a full stack online store with product browsing, cart management, user authentication, and order workflow.

- " Developed product listing, product details, cart, checkout flow, and admin-ready CRUD structure.
- " Designed REST API endpoints for products, users, orders, and database operations.
- " Learned: Managing full stack data flow, API integration, and scalable component structure.

Blog Platform

React.js | Express.js | MongoDB | REST APIs

Developed a content publishing platform where users can create, edit, delete, and view blog posts.

- " Implemented CRUD features, reusable React components, route-based pages, and API-driven content loading.
- " Added validation and clear error handling to improve reliability and user experience.
- " Learned: Building maintainable API contracts and connecting dynamic UI states to database data.

Authentication System

Node.js | Express.js | MongoDB/MySQL | JWT

Designed a secure login and registration system for web applications with protected routes.

- " Built signup, login, password hashing, token-based sessions, middleware, and access control logic.
- " Tested common authentication cases including invalid credentials and restricted page access.
- " Learned: Core security concepts, middleware design, and practical back-end validation.

Developer Portfolio Website

HTML5 | CSS3 | JavaScript | React.js

Created a responsive personal portfolio to present skills, projects, education, and contact information.

- " Designed mobile-friendly layouts, reusable sections, and optimized page performance.
- " Improved accessibility basics using semantic HTML, readable structure, and clear navigation.
- " Learned: Presenting technical work professionally and building polished front-end layouts.

EDUCATION

Bachelor's Degree in Computers and Artificial Intelligence

Third-Year Student | Egypt

Studying computer science, programming, databases, web development, and AI fundamentals.

SOFT SKILLS

Communication | Teamwork | Problem-solving | Adaptability | Self-learning | Attention to Detail

EXPERIENCE

Freelance & Personal Project Experience

Built full stack personal projects from planning and UI design to API development. Practiced self-learning through documentation, tutorials, debugging, and continuous improvement. Used Git/GitHub workflows and improved code through testing, refactoring, and review.
